Subject: revised version of GW-Energy Nexus priority work piece
[high-priority GW-SWP energy work v2.docx](#)

Well, I think this is getting closer- many comments I wrote down from our last conversation have been addressed. This might be a good time for you to have a crack at it and see if you can help make it compelling. There are other people that I want to have look at it before it leaves EPR, but I think it makes sense to wait until you make any revisions you think are needed first.
